The company operates out of offices in New York City, Columbus, Ohio and in Marin County, California. Blue Omega Entertainment was founded in 2003. Its office is located in Fort Lee, New Jersey. The English language versions of the game have sold over a million copies on PC and have spawned three sequels, Rage, Code: Veronica and Counter-Strike: The Apocalypse. Damnation gives players control over multiple characters, each with their own unique abilities and story arc. Character progression is flexible, allowing players to select skills that change throughout the game. Skills are often taken from skills from the original Unreal, allowing players to mix and match professions between different weapons and abilities. Damnation features a fully dynamic environment in which players affect physical and virtual reality, directing their weapons and breathing life into destructible environments, NPCs, and enemies.
